Dear Mr. Dobson:

Re: Plan Amendment and Surety, Cricket Quarry, M/027/006, Millard County, Utah

The Division has not yet received an official response from Continental Lime, regarding the plan amendment and new reclamation surety. Our last formal correspondence with Continental Lime was made almost 1 year ago.

Currently, a large deficiency exists between the amount of surety we currently hold and the new estimate (\$179,000 - \$38,000 = \$141,000). This deficiency must be resolved as soon as possible.

Also, the Division's review letter of August 8, 1989 has not yet been formally addressed by Continental Lime. Several questions remain unanswered concerning the operation's Mining and Reclamation Plan.

Continental Lime must address these deficiencies by July 15, 1990, by submitting the required material or explaining via formal correspondence, why it cannot be obtained at this time. If this deadline is not met, appropriate action will be considered to ensure compliance with the State's reclamation requirements.

Sincerely,

Holland Shepherd  
Reclamation Specialist
